Editorial
1 Evidence-based cervical facet consensus: access or outcome?
R Derby, M P Stefanovic, D J Kennedy

Special article
3 Consensus practice guidelines on interventions for cervical spine (facet) joint pain from a multispecialty international working group

Research reports
60 Percutaneous cryoneurolysis of the lateral femoral cutaneous nerve for anaesthesia following skin grafting: a randomized, controlled pilot study
J J Finneman IV, A N Schaaf, M W Swisher, L N Godat, J G Lee, S M Higginson, B M Ilfeld

62 Evaluation of trends in continuous peripheral nerve block utilization for total knee arthroplasty within and outside the Veterans Affairs Healthcare System
H Nagavelli, R M Martinez, V Krishnamoorthy, N D Ray, H-L Hwa, A R Ellis, S G Memtsoudis, W E Bryan, M J Peipin, R Raghavan

66 Ventriculolumbar perfusion and inhalational anesthesia with sevoflurane in an accidental intrathecal injection of tranexamic acid: unreported treatment options
S Goder, M J Gradisiek, T Mirkovic, P Gradisiek

70 Novel method of locating the foramen ovale: a wobbly chair with shaky legs
J L De Cordoba, C Garcia-Maqueta, N Isaac

70 Femoral artery block: the relationship between visceral and ischemic pain
A Boezaart, C Smith, Y Zasimovich, M A Reina

71 It’s not over until it’s over

72 In reply to Schnabel et al...
F W Abdallah, N Hussain, R Brull

73 Ultrasound-guided retrolaminar cervical block
U Hochberg, J de Santiago Moraga

74 Cervical erector spinae versus retrolaminar plane block as an alternative to classical interscalene block
B C H Tsui, H Elsharkey

76 Toward precision regional anesthesia: is the PENG block appropriate for all hip fracture surgeries?
R Kim, B C H Tsui

77 In reply to: “towards precision regional anesthesia: is the PENG block appropriate for all hip fracture surgeries?”
